

# What does it mean to be a Science Force Volunteer?

Science Force is a beloved PTO-run science lab that is held twice a year for each class. Every class currently has a Lead running the labs, but we still need volunteers to help out!

## FAQs

- ***I don't have a science background. Can I still volunteer?*** - Absolutely! You do not need a science background to volunteer. All labs come with a short video or guide explaining your role as a volunteer. Just come to have fun!
- ***What is the time commitment?*** - You'll need about 10 minutes to watch the video or go through the guide explaining your lab. The actual day of the lab is a 1-hour commitment.
- ***Is there any financial commitment?*** - None at all!
- ***I am not fluent in English, but I would like to help. Is that OK?*** - YES! While total fluency in English is not needed, you will need to be able to communicate a little bit to help the students. Coming out to volunteer is a great way to meet other parents and build connections within the school!
